

**MAKE AN
IMPACT**
PARTNER WITH YARM

**WORKING
TOGETHER**

Do you want to have a transformational impact on the lives of young people and community organisations in our region?

Engagement with, and contribution to, our community is at the heart of our ethos and our strategic vision at Yarm. Our purpose-led partnerships contribute positively to our local and regional community here in the Tees Valley, widening access to Yarm School and providing opportunities for children to be inspired and to develop a sense of social responsibility. Find out more in our [short video](#).

We have ambitions to grow this programme for greater impact and are keen to partner with businesses and individuals with similar goals, helping you deliver on your Corporate Social Responsibility and Environmental and Social Governance objectives or achieve your philanthropic aims.

We'd love you to get involved. To find out more, get in touch at partnerships@yarmschool.org.

Dr Huw Williams, Headmaster

GET INVOLVED

Widen access to our Schools Partnerships Programme

We run a highly successful programme of events, workshops and activities for Primary and Secondary schools in our local area. Your collaboration could help fund transport or meals so disadvantaged children would be able to participate.

Explore some of our current offer at:

www.yarmschool.org/prep-partner-programme-24

Facilitate high quality teacher development

We plan to organise and host a professional development conference for teachers in the region, facilitating access to first-rate speakers and classroom practitioners.

Our aim is to promote continuing excellence in teaching and learning across the North East.

Your sponsorship would increase the reach of the event, and the training sessions could be focused on supporting teachers from target subject areas, or teachers who support pupils from specific demographics according to our shared objectives.

Transform individuals' lives through bursaries

We work closely with partner organisations, including the [RNCSE](#), to drive social mobility through access to great educational opportunities at Yarm. By sponsoring a bursary, you can provide a fully-funded place to a child who needs it most. Bursaries can be from 11-18 or Sixth Form only, and could be targeted to support children with a talent, strength, or career ambition in a subject or industry area.

Support state schools in under-resourced areas

With teacher recruitment in crisis, subject experts are hard to find and staffing is increasingly challenging. Together, we can make a significant impact on large numbers of young people - with your help we will employ and manage teachers whose timetables include work at state schools with a need for support.

Stockton Regeneration Clay Model Installation

Our ambition is for over 1000 children from the borough to each make a clay figure to be displayed in a temporary installation on the redeveloped Stockton Riverside. This will be a wonderful opportunity for children to be part of this civic event, and a representation and celebration of the children in Stockton, making the connection between the new urban space and the next generation of our community who will use the space.

To achieve this we plan to expand our clay workshop programme and visit over 30 schools and classrooms, before June 2026.

We are delighted to have already secured the generous support of Jackson's Law Firm as well as the involvement of Stockton Borough Council and are looking for further sponsors for this ambitious community project.

UPCOMING PROJECT

OVER participating in

3000 children

7500 hours of partnership activities

"It opened the eyes of our children to the real life applications of STEM."

Mr Drake, Teacher, Kirklevington Primary School

 **39**
 schools across 13 projects

"Great to hear about local career opportunities in the FAME sectors."

Lower Sixth Student, Conyers School

The Princess Alexandra Auditorium hosted

20 charity and community events

12 STEM Industry leaders who delivered workshops on our STEM Day (in collaboration with NE Stem Foundation)

"I love coming along to the Yarm School's Memento Events - there is a wonderful atmosphere with people from all generations singing, dancing and clapping along together to the music, with smiles on all their faces."

Margaret, Memento Attendee

160 delegates representing universities, businesses and career

7 Children's Author Visits

1000+ visitors to Careers Events

"I felt like this event was of a suitable magnitude we could engage with many schools simultaneously. I personally feel like this is a 'winning formula' and would be very keen to support another event like this in the future."

Adam Tuff, Tracerco, participant in STEM Days with North East Stem Foundation

PARTNERSHIPS 2023/24

YARM SCHOOL

EDUCATING FOR LIFE
